

# Creating Value in the Automation Age

Amy Zalman, Ph.D.  
5 May 2017

Don't Spit On  
The Floor

*Automated  
Flour Mill  
circa 1918*

**Special Report:  
Automation Puts  
Jobs in Peril**

**Robots Do Destroy Jobs  
and Lower Wages,  
Says New Study**

**Could Slash Jobs in Developing**

- 1. Automation is a non-trivial issue**
- 2. Occupation based vs. task-based methods**
- 3. Occupational sectors matter**
- 4. Jobs are created as well as destroyed**
- 5. Different population subsets are affected differently**
- 6. Many factors besides technological capability affect the implementation of automated work**

# The End of Outsourcing?
